

LinHES - Bug # 1001: please update to latest chrome in the Repo.

Status:	Closed	Priority:	Normal
Author:	mattbatt	Category:	Packages: Extra
Created:	04/04/2016	Assignee:	brfransen
Updated:	04/06/2016	Due date:	
Description:	Google is complaining that Chrome isn't up to date and according to the Chrome blog the latest version as of April 1st is version 51. http://googlechromereleases.blogspot.com/2016/04/the-dev-channel-has-been-updated-to-51.html We are still on 47 which is only 3 months old.

We follow the stable channel which is currently at version 49 and is in the testing repo. I don't have a box on the stable repos right now but if you can test and confirm the version in testing works on a stable box I can push it to stable. @sudo pacman -U

http://linhes.org/repo/x86_64/extra-testing/google-chrome-49.0.2623.110-1-x86_64.pkg.tar.xz@
