LinHES - Bug # 1033: inconsistency LIRC Streamzap Foward Forward

Description:	It looks like someone spelled Forward correctly in the /usr/MythVantage/templates/remotes/favorites/StreamZap/lircd.conf.streamzap file. This does not match the spelling in "lircrc" and "Lircmap.xml" files in the same directory where it is spelled incorrectly as "foward". Graysky's files for the Streamzap remote also spell it incorrectly as "foward". Inconsistency makes the fast Forward button not function properly. I don't care which way it's spelled as long as it works. *:-)* Changes in the Repository http://linhes.org/projects/linhes/repository/diff/abs/core/system-templates/templates/remotes/favorites/streamzap/lircd.conf.streamzap?rev=797070af1a8a82a05cbdf35ac6180cddc989a074&rev_to=338facd2f16924a986dc272cc2496e40e7ce0e0a Graysky's GitHub https://github.com/graysky2/streamzap
