LinHES - Bug # 104: Backup/restore need to be run sudo root

Status:	Closed	Priority:	Normal
Author:	tjc	Category:	
Created:	01/10/2009	Assignee:	
Updated:	01/12/2009	Due date:	12/31/1969
Description:	Running backup or restore from the menus produces a large number of "Operation not permitted" errors because the scripts are apparently not being run with root privilege. In previous versions this was done by running these using sudo and granting the mythtv user permission to run these scripts.		

History

01/12/2009 11:47 pm - jams

The menus already seem to have sudo, and the scripts run.
