LinHES - Bug # 105: Mythbackend init script

Status:	Closed	**Priority:**	Normal
Author:	mrjackson	**Category:**	
Created:	01/10/2009	**Assignee:**	
Updated:	01/12/2009	**Due date:**	
Description:	/etc/rc.d/mythbackend The PID file (/var/run/mythbackend.pid) is not created thus rendering the restart and stop functions inoperable. The logfile (/var/log/mythbackend.log) is not created either.

The way to start/stop/restart the backend is via sv.

sv start mythbackend

sv restart mythbackend

sv stop mythbackend

See http://smarden.org/runit/sv.8.html for more.
