

LinHES - Bug # 115: post-install menu option

Status:	Closed	Priority:	Normal
Author:	Human	Category:	
Created:	01/13/2009	Assignee:	
Updated:	01/24/2009	Due date:	12/31/1969
Description:	When the installation is done, I'm not sure why the user is asked whether they want to turn their newly-installed LinHES box off. Why shouldn't Reboot be the only option here?		

History

And if "Turn off" is a valid option for some people, it should at least not be the default option.

01/21/2009 03:07 pm - Human

Button order was not flipped in 6.00.05.

01/24/2009 11:54 pm - jams

It's marked due in .06
