Is this while installing from the CD or when booting from the HD afterwards? If the later, this is a duplicate of issue #175.

02/14/2009 03:15 pm - scooter29

Sorry, this is with cd on a fresh install.

02/19/2009 03:48 pm - jams

Looks like 5200 was dropped from the latest nvidia driver and moved to the 9600 series.

A fix will be coming along shortly

02/19/2009 04:02 pm - jams

This is fixed in the latest version of LinHES-config.
