

## LinHES - Bug # 197: Unmounting network filesystems

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Gnarl	<b>Category:</b>	
<b>Created:</b>	02/17/2009	<b>Assignee:</b>	
<b>Updated:</b>	02/18/2009	<b>Due date:</b>	
<b>Description:</b>	Unmounting network filesystems task at shutdown is slow at shutdown. Most likely because this happens because network was shutdown before this took place. (frontend install)
