

LinHES - Bug # 205: Theme bug in MythVideo "file associations" screen

Status:	Closed	Priority:	Normal
Author:	tjc	Category:	
Created:	02/19/2009	Assignee:	cecil
Updated:	03/20/2010	Due date:	
Description:	The buttons on the bottom of the setup screen for MythVideo file associations are a bit whacked out under the LinHES theme. This is under Setup -> Media Settings -> Video Settings -> File Types

Which version of linhes-theme do you have installed (pacman -Qs linhes-theme)? I don't think linhes-theme-1-7 should have this problem.

02/20/2009 09:26 pm - tjc

Whatever came out of the box with 6.00.06. I need to re do the install, but the test machine is currently running R5.5 so that I can get some data on it and test the upgrade process. It'll be at least a couple hours before I'm back there.

OK, I've got things back where they were. Looks like it's linhes-theme-1-3 at the moment.

02/21/2009 02:17 am - tjc

Fixed after running pacman -Syu to upgrade the system.
