LinHES - Bug # 254: Add support for enabling jumbo frames to the network config screens

Status:	Closed	**Priority:**	Normal
Author:	tjc	**Category:**	
Created:	03/02/2009	**Assignee:**	
Updated:	12/25/2011	**Due date:**	12/31/1969
Description:	This should be pretty straight forward, mostly a check box and an MTU value to be added to /etc/net/ifaces/eth0/iplink or other appropriate file for the interface. See ticket #251 for more. In the R5 series this was always one of those nuisance chores that had to be done manually after each install.		

History

03/03/2009 03:34 pm - graysky

An entry in the service menu would be very slick.

03/22/2009 04:15 pm - jams

Implemented in LinHES-config 1.0 343.

Please note that not all MTU's will be supported by the card.

If they are not supported they will silently be ignored when starting the network.
