

## LinHES - Bug # 318: Delay in Executing Remote Control Commands

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	mihanson	<b>Category:</b>	
<b>Created:</b>	04/08/2009	<b>Assignee:</b>	jams
<b>Updated:</b>	12/25/2011	<b>Due date:</b>	12/31/1969
<b>Description:</b>	<p>I'm running mythtv-udpau and I semi-frequently experience mythtv delays executing remote control button presses, as described</p> <p>[[<a href="http://www.gossamer-threads.com/lists/engine?do=post_view_flat;post=347546;page=1;sb=post_latest_reply;so=ASC;mh=25;list=mythtv here">http://www.gossamer-threads.com/lists/engine?do=post_view_flat;post=347546;page=1;sb=post_latest_reply;so=ASC;mh=25;list=mythtv here</a>]]. This problem does not seem to be unique to the mythtv-udpau build, so I'm reporting it here. It seems that a patched mpeg.c file solves the problem for several people in the aforementioned thread. I was hoping we could add [[<a href="http://svn.mythtv.org/trac/ticket/6406">http://svn.mythtv.org/trac/ticket/6406</a>][this patch]] to our mythtv builds until the mythtv devs either find a better solution or accept this patch.</p>		

### History

#### 04/10/2009 05:58 pm - jams

patch applied to mythtv rev 59 and the community pkg rev 12  
please try it out and report back.

#### 04/27/2009 06:14 pm - mihanson

This seems to be working. I still seem to have some navigation delays when moving from an ATSC to SD cable recording on the watch recordings screen, but overall, I'd say things have improved remarkably.
