

LinHES - Bug # 393: New HVR-950Q firmware and driver improvements

Status:	Closed	Priority:	Normal
Author:	brfransen	Category:	
Created:	06/16/2009	Assignee:	
Updated:	12/25/2011	Due date:	12/31/1969
Description:	There have been updates to the HVR-950Q driver to add support for analog and QAM64. There is also new firmware that is required for the latest v4l-dvb tip. The firmware can be downloaded from http://www.kernellabs.com/firmware/xc5000/
