# LinHES - Bug # 410: update Apple Trailers list dynamically

| | | | |
|---|---|---|---|
| **Status:** | Closed | **Priority:** | Normal |
| **Author:** | Human | **Category:** | Other |
| **Created:** | 06/22/2009 | **Assignee:** | jams |
| **Updated:** | 03/30/2010 | **Due date:** | |
| **Description:** | The Apple Trailers list is currently a static snapshot from many months ago.  I recommend automatically re-syncing with apple.com as soon as the installer detects a working internet connection, so that the user has a good chance of seeing new trailers. | | |

## Associated revisions

linhes-system: update apple-trailers on first boot, this is done inthe background and only once.

After the first boot, the cron job takes over for updating.

closes #410

## History

**07/17/2009 04:51 am - alien**

The cron.daily fixes I added to http://linhes.org/flyspray/index.php?do=details&task_id=439&project=2&pagenum=2 should fix this so they are updated every day (assuming the box is running at the cron.daily time).

**07/17/2009 10:51 am - Human**

That's useful going forward, but until the cron job runs, someone could potentially get trailers from N months ago.  The proposal is to run the updater as soon as possible to avoid this.
