LinHES - Bug # 421: web security should enable passwords for all pages

Status:	Rejected	**Priority:**	Normal
Author:	alien	**Category:**	
Created:	07/07/2009	**Assignee:**	
Updated:	03/21/2010	**Due date:**	

Description:	Currently, enabling web security only adds password protection to mythweb. I think it would be better to enable it for all web pages. To do this, /etc/lighttpd/auth-inc.conf should be changed to: `<code>auth.require = ( "/" => ( "method" => "basic", "realm" => "MythWeb", "require" => "valid-user" ) ) </code>`
