

LinHES - Bug # 439: Errors in cron.daily scripts

Status:	Closed	Priority:	Normal
Author:	alien	Category:	
Created:	07/17/2009	Assignee:	cecil
Updated:	03/20/2010	Due date:	12/31/1969
Description:	<p>I just changed my cron.daily to run when the machine is up and I now get the following errors emailed to me. I can probably start working through fixing some of them, but it would be useful to know which jobs are still needed.</p> <pre><code>real 0m4.686s user 0m0.187s sys 0m0.017s error: stat of /var/log/mythtv/pause-mythcommflag.log failed: No such file or directory /etc/cron.daily/myth_mtc.sh: line 4: /var/log/2009-07-17/myth_mtc.log: No such file or directory /etc/cron.daily/myth_mtc.sh: line 9: /var/log/2009-07-17/myth_mtc.log: No such file or directory user ftp: directory /srv/ftp does not exist user http: directory /srv/http does not exist pwck: no changes no matching group file entry in /etc/gshadow add group 'uucp' in /etc/gshadow ?No no matching group file entry in /etc/gshadow add group 'locate' in /etc/gshadow ?No grpck: no changes Notice: Undefined index: value in /usr/bin/mythtrailers_grabber on line 163 Notice: Undefined index: value in /usr/bin/mythtrailers_grabber on line 163 Notice: Undefined index: value in /usr/bin/mythtrailers_grabber on line 163 </code></pre>		

History

Here are the fixes.

The following files go in /etc/cron.daily:

```
* hulu_grabber.sh
* myth_mtc.sh
* trailers
```

The following files go in /etc/logrotate.d:

```
* myth_mtc.lr
* pause_mythcommflag
```

Cheers,

Allen

Thanks alien.

```
<code>sudo pacman -Sy linhes-scripts LinHES-system mythvodka mythappletrailers</code>
```
