I took a look at this... I downloaded tarball and there is no instructions on installing this or setting it up. I joined the mailing list and asked for details but no response.

Would MiroBridge work for you instead?

04/13/2010 10:19 am - brfransen

- Target version set to 6.03.00

- Category set to Packages: Core

- Status changed from In Progress to Resolved

Included with mythtv .23 as package mythnetvision.
