

## LinHES - Bug # 471: hdhomerun with the latest mythtv-fixes

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	GregFrost	<b>Category:</b>	
<b>Created:</b>	08/03/2009	<b>Assignee:</b>	cecil
<b>Updated:</b>	12/25/2011	<b>Due date:</b>	12/31/1969
<b>Description:</b>	<p>People are reporting problems with hdhomerun tuners and more recent mythtv packages:</p> <p>See nmcaullay's comment: <a href="http://knoppmyth.net/phpBB2/viewtopic.php?t=20201&amp;highlight=">http://knoppmyth.net/phpBB2/viewtopic.php?t=20201&amp;highlight=</a></p> <p>Some time ago, I put in this patch to the PKGBUILD: changeset-20877.patch</p> <p>Which reverses changeset 20877. <a href="http://svn.mythtv.org/trac/changeset/20877">http://svn.mythtv.org/trac/changeset/20877</a> I had to do this to get mythtv to compile, but I suspect that it may be what has broken hdhomerun.</p> <p>Needs furether investigation (0.21-fixes may build with changeset 20877 if we get the latest from svn and build without my patch).</p>		

### History

**08/06/2009 11:53 am - cecil**

`<code>sudo pacman -Sy mythtv</code>`

**08/07/2009 05:56 pm - GregFrost**

reports from the forum are that the recompuile filed it.

I guess all that remains it to delete the patch, remove it from the PKGBUILD entirely and close the task.

**08/08/2009 08:02 pm - GregFrost**

removed, bumped rebuilt and pushing

**12/25/2011 03:10 pm - jams**

- Target version changed from 8.0 to 6.00.04
