

LinHES - Bug # 497: ssh: "allow root login" option trumped by restoring /etc/sshd/sshd_config

Status:	Closed	Priority:	Normal
Author:	Human	Category:	
Created:	08/12/2009	Assignee:	jams
Updated:	03/25/2010	Due date:	
Description:	Upgrade from R5.5 to R6. I need to double-check this to make sure, but I believe that I opted to allow root ssh login in the GUI when upgrading. However, the restored /etc/sshd/sshd_config clobbered this choice.

We probably either shouldn't restore that or do a bit of post restore fix up on it.
