Description:	In the default install the cx18 driver seems to load but it complains that it cannot find the firmware. After copying the 3 firmware files into /lib/firmware everything worked fine and seems to work correctly. the 3 files: v4l-cx23418-apu.fw v4l-cx23418-cpu.fw v4l-cx23418-dig.fw Link to download for downloading: http://dl.ivtvdriver.org/ivtv/firmware/cx18-firmware.tar.gz Info found at: http://www.mythtv.org/wiki/Hauppauge_HVR-1600 Thanks, LB
