LinHES - Bug # 518: add tjc's post-install script

Status:	Closed	**Priority:**	Normal
Author:	graysky	**Category:**	Other
Created:	08/22/2009	**Assignee:**	jams
Updated:	03/26/2010	**Due date:**	

Description:	tjc has written a nice post-install script that cleans up some stuff and looks very nice. See his reply in [[http://knoppmyth.net/phpBB2/viewtopic.php?p=123394|this post]] for the script. Ah hell, I'll just paste it here:

```
<code>
#!/bin/bash

# This script cleans up some SVN stuff that the build process leaves
# in /usr/share/mythtv, along with ownership and file permsisions on the
# themes and the mythstream stuff.  There are bunch of files which are
# left executable for no good reason, although I can think of several
# potentially bad reasons for it.

find /usr/share/mythtv -name .svn -print0 | xargs -0 rm -rf
find /usr/share/mythtv -name CVS -print0 | xargs -0 rm -rf

THEMES=/usr/share/mythtv/themes

chown -R root:root $THEMES
chmod -R +r $THEMES
find $THEMES -type f -print0 | xargs -0 chmod a-x

chown -R root:root /myth/backup/

chown -R www-data:www-data /myth/image_cache/*
chown -R www-data:www-data /var/www

# None of thes files should be executable.
for ext in gif png jpg xml htm html php ; do
    find / -type f -name "*.$ext" -print0 | xargs -0 chmod a-x
done

# These files should be owned by root and not writable to anybody else

chown root:root /usr/share/mythtv/*.xml /usr/share/mythtv/*.ttf

chown -R root:root \
   /usr/share/mythtv/i18n \
   /usr/share/mythtv/mytharchive \
   /usr/share/mythtv/mythflix \
   /usr/share/mythtv/mythnews \
   /usr/share/mythtv/mythvideo \
   /usr/share/mythtv/mythweather \
   /usr/LH \
   /etc/rc1.d \
   /usr/lib/hotplug/firmware \
   /usr/local/share/knoppmyth/KnoppMyth.sql \
   /usr/local/bin/rrd*
```

```
                  # Report any remaining orphans...
                  find / /myth -xdev \( -nouser -o -nogroup \) -ls
                  </code>
```

Won't include the script because these things should be corrected by the pkg installation, not by a 3rd party process.

However I will find whats causing these problems in the first place and fix them.
