<b>Description:</b>	<p>mediaserv did not work by default for me on a 6.01 fresh install. I had to edit two lines in /usr/bin/mediaserv script as follows:</p> <pre>my \$baseDir      = '/myth/mediaserv/media';  \$DATA_DIR = '/myth/mediaserv';</pre> <p>That seems to make everything appear in the web interface.</p>
