

LinHES - Bug # 594: Need netcat added to repos

Status:	Closed	Priority:	Normal
Author:	poflynn	Category:

Updated:	03/20/2010	Due date:	12/31/1969
Description:	Was planning on having my MBE wake my SBE with tuners to do recordings. The instructions in the wiki below require the use of netcat ("nc") which I couldn't find using pacman. Would be great if this could be added to the repos. I guess [http://www.archlinux.org/packages/extra/i686/gnu-netcat/ this] would do? http://www.knoppmythwiki.org/index.php?page=WakeonLANConcierge
