

LinHES - Bug # 609: Password change fails in installer

Status:	Closed	Priority:	Normal
Author:	chunter2	Category:	
Created:	01/12/2010	Assignee:	
Updated:	01/30/2010	Due date:	
Description:	I get "Password contains invalid characters" when trying to change the password from the installer. It doesn't seem to like the shifted characters above the numbers. I can change the password with the passwd command from the shell.
