

## LinHES - Bug # 677: mplayer-wrapper.pl needs a dependency: vdpauinfo

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Human	<b>Category:</b>	Packages: Core
<b>Created:</b>	04/01/2010	<b>Assignee:</b>	mihanson
<b>Updated:</b>	04/04/2010	<b>Due date:</b>	
<b>Description:</b>	Package vdpauinfo is required by mplayer-wrapper.pl in order to check the user's system for vdpau capability when determining mplayer parameters. At the moment, vdpauinfo has to be installed by hand.		

### History

- Target version set to 6.03.00

- Status changed from New to In Progress

- Assignee set to mihanson

- Category changed from Packages: Extra to Packages: Core

I'm not intimately familiar with the script, but what if the user does not have a VDPAU-capable video card? Would an optional dependency on vdpauinfo be better?

**04/01/2010 01:23 pm - Human**

The script depends on it, in that it makes a call to vdpauinfo (or will, once I update it). Unless it's a dependency of the package containing mplayer-wrapper.pl, then nobody will know to install it. It causes no harm for people who don't have vdpau-capable hardware.

Ok, no problem. Do you have an updated script I can add. Rather just update this once. :)

**04/01/2010 02:04 pm - Human**

No update yet. I'm adding a feature to auto-crop old-style "widescreen" 4:3 videos, usually MPEG2. I'll push the new code to my github repo when done: <http://github.com/Human/mythic.tv-contributed-code>
