LinHES - Feature # 680: language selection on install -> select keyboard layout

Status:	Closed	**Priority:**	Normal
Author:	martin1802	**Category:**	Installation/Upgrade
Created:	04/04/2010	**Assignee:**	jams
Updated:	10/21/2013	**Due date:**	
Description:	not sure ... I try to install a new system on a new machine ... 6.02.00 from iso cd selection of language is after first reboot ... but this will only select language but not the locale settings and keyboard selection.		

Associated revisions

LinHES-config: add support for selecting the lang/country during install.

The lang is then translated to a locale which is then applied to the system by mv_locale.

The lang->locale lookup is done inside mv_locale with a static dict.

Any chance for LinHES 7 to have that working feature?

08/08/2011 04:16 am - martin1802

Any chance for LinHES 7.01.00 ... updated ISO installer?

After new installation every time the same ... and have to look where it is ... manually change keyboard on console / X to german :-(... maybe in selecting dialog / mythtv language setting too.
