LinHES-config: add support for selecting the lang/country during install.

The lang is then translated to a locale which is then applied to the system by mv_locale.

The lang->locale lookup is done inside mv_locale with a static dict.

add de_DE local for germany ... UTF8

setting keyboard in console (ttySx) and X ... maybe possible to select different keyboard models like pc104, pc105 /w or /wo numkeyoard?

11/07/2012 01:12 pm - jams

- Target version set to 8.0

- Status changed from New to Closed

- Category set to Installation/Upgrade

Added the mythtv country/lang selection screen.

The selected lang is then translated into a locale for the system.

Keyboard setup will still be a manual process
