

LinHES - Feature # 744: implement nfs4 as the default nfs falvor

Status:	Closed	Priority:	Normal
Author:	graysky	Category:	
Created:	12/22/2010	Assignee:	jams
Updated:	10/19/2011	Due date:	01/10/2011
Description:	After some new rounds of benchmarking both xfer speeds and CPU use, I have come to the conclusion that nfsv4 rocks. Higher speeds than nfs or samba and much lower CPU use. I propose implementing the LH shares using nfs4 with samba as an option for the windows folks.
