LinHES - Bug # 768: Service Menu - Updates available

Status:	Closed	**Priority:**	Low
Author:	Golffies	**Category:**	Packages: Core
Created:	03/31/2011	**Assignee:**	cecil
Updated:	10/07/2011	**Due date:**	10/07/2011
Description:	An upgrade being completed through the Service Menu, performing another "check for updates" in the next minutes will return an "updates available" message, but will fail to display any files to be upgraded, of course. At that stage, no update being actually available, the "updates available" menu displays confusing guidance : * Perform updates ? * Yes * No * View files to be upgraded <pre> Version: LinHES-system 1.1-32 LinHES-config 2.1-43 </pre>
