

LinHES - Bug # 780: missing x11vnc or/and tightvnc ...

Status:	Closed	Priority:	Normal
Author:	martin1802	Category:	Packages: Extra
Created:	08/09/2011	Assignee:	
Updated:	08/09/2011	Due date:	08/09/2011
Description:	<p>x11vnc from arch core uses openssl 0.9.8 but only 1.0.0 available on linhes repos too ...</p> <p>[FEATURE] maybe add a dialog in linhes setup / configure for auto inserting line inside /home/mythtv/.fluxbox/apps :-) ... what to do with better password? Is there a possibility for not using a clear written password? Maybe use -rfbauth option for setting passwords in file ~/.vnc/passwd</p> <pre>#[startup] {/usr/bin/x11vnc -nap -wait 50 -users +mythtv -passwd mythtv -display :0 -forever -o /var/log/x11vnc.log -bg}</pre> <p>-----</p> <pre>[root@wohnzimmer2 ~]# /usr/bin/x11vnc -nap -wait 50 -users +mythtv -passwd mythtv -display :0 -forever -o /var/log/x11vnc.log -bg</pre> <pre>/usr/bin/x11vnc: error while loading shared libraries: libssl.so.0.9.8: cannot open shared object file: No such file or directory</pre> <p>-----</p>

- Status changed from New to Closed

- Due date set to 08/09/2011

- Category set to Packages: Extra

x11vnc was upgraded 5 days ago and it is in the extra-testing repo, but pacman is not picking it up for some reason. I found an old version of x11vnc still in the repo and have deleted it and re-synced. x11vnc 0.9.12 now shows up with <pre>pacman -Sys x11vnc</pre>
