LinHES - Bug # 830: Fluxbox should use the new standard for LinHES windowmanger startup.

Status:	Closed	**Priority:**	Immediate
Author:	jams	**Category:**	Installation/Upgrade
Created:	05/15/2012	**Assignee:**	jams
Updated:	05/15/2012	**Due date:**	
Description:	Currently fluxbox is the odd man out and uses it's own startup path. This causes duplication of code and possible inconsistencies with shortcuts. The main thing from a user point of view is that linhes shortcuts will no longer use fluxbox keys for hotkeys. Main side effect is that fluxbox will not be used for any hotkeys, unless the user restores the fluxbox keys file.

fluxbox: remove linhes specific hotkeys from global key file.

Also rename user defined fluxbox.keys for upgrades.

refs #830
