<b>Description:</b>	<p>Following this thread here, I was able to get the Hauppauge Nova-HD-S2 card to work with LinHES. All that is necessary to do this is add the correct firmware to the /lib/firmware folder (thanks brfransen for the where!)</p> <p>I used the most recent version of the 1.26.90.0 firmware from <a href="http://www.wintvcd.co.uk">www.wintvcd.co.uk</a> as described in the post over at LinuxTV.org. [[<a href="http://www.linuxtv.org/wiki/index.php/Hauppauge_WinTV-HVR-4000">http://www.linuxtv.org/wiki/index.php/Hauppauge_WinTV-HVR-4000</a>]]</p> <pre>@cd /tmp</pre> <pre>wget http://www.wintvcd.co.uk/drivers/88x_2_126_28225_WHQL.zip</pre> <pre>Unzip 88x_2_126_28225_WHQL.zip</pre> <pre>sudo dd if=hcw88bda.sys of=/lib/firmware/dvb-fe-cx24116.fw bs=1 skip=105768 count=32290</pre> <pre>@</pre> <p>I also used their command for the symink, but I don;t think it necessary.</p> <p>After rebooting my LinHES box, I was able to scan for channels successfully.</p>
