

LinHES - Bug # 860: vncsvc account uses the wrong theme

Status:	Closed	Priority:	Normal
Author:	jams	Category:	Other
Created:	10/30/2012	Assignee:	jams
Updated:	11/03/2012	Due date:	
Description:	vncsvc and mythtv home dir should be linked together so they share the same mythtv theme cache dir.

- Status changed from *Accepted* to *Closed*

During vnc setup .mythtv for vncsvc is a symlink to \$HOME/mythtv/.mythtv

Also a setfacl is executed to allow vncsvc access.

By default it's read only.

This is needed because vncsvc and mythtv share the settings table.
