<b>Description:</b>	<p>In order to help the SD folks help everyone else it would be nice if it were easier for linhes users to run the script in the posting below and provide QAM maps to all SD users (including linhes users). All I think we are missing to run the script is the libfile-homedir-perl library.</p> <p>Thx</p> <p><a href="http://forums.schedulesdirect.org/viewtopic.php?f=3&amp;t=1214">http://forums.schedulesdirect.org/viewtopic.php?f=3&amp;t=1214</a></p>

### History

#### 12/05/2012 08:06 am - jams

- Target version set to 8.0

- Estimated time set to 2.00

- Status changed from New to Resolved

Both the scripts and the perl module are included in R8.

Leaving this open just in case someone wants to make the same change in R7 series.
