LinHES - Feature # 878: Please add libfile-homedir-perl to the repo

Status:	Closed	**Priority:**	Low
Author:	jams	**Category:**	Packages: Core
Created:	12/10/2012	**Assignee:**	jams
Updated:	05/29/2013	**Due date:**	
Description:	In order to help the SD folks help everyone else it would be nice if it were easier for linhes users to run the script in the posting below and provide QAM maps to all SD users (including linhes users). All I think we are missing to run the script is the libfile-homedir-perl library. Thx http://forums.schedulesdirect.org/viewtopic.php?f=3&t=1214
